

How to Find In-network Providers on the Online Provider Finder

Check your Blue Cross and Blue Shield of Nebraska member ID card for your network name.

1. At www.nebraskablue.com, select FIND A DOCTOR.

2. Then, choose SEARCH OUR DIRECTORIES.

3. In the first field of the FIND A DOCTOR page, select the drop down arrow and click on the type of provider you would like to search. Enter the provider's name or specialty, procedure, etc. Then, enter your location (ZIP code, city/state or full address). Choose your network from the CHOOSE NETWORK drop down menu. Then, select SEARCH.

Refer to your BCBSNE member ID card if you do not know your alpha prefix or network name. See the sample card.

4. Your search results will show in-network providers.
